

VISITM COMMANDER

Enterprise Visitor Management Solution for Cleared Facilities

ViSi CommanderTM helps secure facilities streamline how they manage guest access, approvals, and compliance. From front desk check-ins to enterprise-wide visitor workflows, it gives teams the tools they need to stay secure, efficient, organized, and audit-ready.

What ViSi Commander Delivers

- ✓ Visitor self-registration
- ✓ Receptionist and kiosk check-in modes
- ✓ Reduced lobby check-in time
- ✓ Assign physical badge
- ✓ Email notification of guest arrival
- ✓ Watchlist (deny entry) integration
- ✓ Supports multiple locations
- ✓ Secure visit approvals
- ✓ Employee verification
- ✓ Recurring visit and meeting support
- ✓ On-prem / Cloud / SCIF deployment options
- ✓ Pairs with Access Commander[®]

Compliance You Can Count On

ViSi Commander is built to help you stay ahead of audits and aligned with federal security standards. It supports full compliance with 32 CFR Part 117, the NISPOM Rule, and ITAR regulations—making it a trusted solution for cleared facilities. With encrypted data protection and approval-based workflows, your visitor management process stays secure, consistent, and audit-ready.
